CAREER OBJECTIVE

As a dedicated MERN stack developer, I am passionate about building robust and scalable web applications that deliver exceptional user experiences. I am eager to contribute my skills to a dynamic team, tackle new challenges, and grow into a senior development role where I can help drive innovation.

PROJECT

PATHCHAKRO

Pathchakro is a dynamic, full-stack collaborative study platform built with MongoDB, Express.js, React, and Node.js. The system allows users to manage assignments, while the core feature is a peer-to-peer grading system where students can review and mark each other's work.
